

A report on Rheumatic heart disease on physical plane

A boy of 6 years was suffering from hyperactivity unable to concentrate and understand the things with other problems connected with digestion, nerve etc. At this stage, medical dowsing was done. (See the report) in the meanwhile, parents of the patient contacted the Jayadeva Institute of Cardiovascular Sciences on their own. They diagnosed the problem as Rheumatic heart disease you can see the report of dated 15-07-2017 and prescribed allopathic medicines. But, the parents of the patient were not interested for that and approached me for the holistic treatment. Accordingly, Kirlian scanning was done on 31-07-2016 and correlated the finding with the medical dowsing report dated 01-08-2016 (as shown). Both are one and the same, holistic treatment was continued with slight changes of prescription and change in lifestyle. Gradually, the child was improved and cheerful. On 05-02-2017 and 18-05-2017 compare was done with original Kirlian scanning which is self-explanatory of improvement for Holistic treatment. After this the parents again contacted Jayadeva Institute to find out the differences in the patient's condition. Accordingly on 04-05-2017 they conducted further investigation and found improvement, on the basis of reports they advised to continue the same treatment which was prescribed by them. Here I want to make it clear that the parents of the patient never given the medicine prescribed by the institute(allopathy medicine) they stick only for holistic treatment.

**SRI JAYADEVA INSTITUTE OF CARDIOVASCULAR
SCIENCES AND RESEARCH**

2D-Echocardiography & Colour Doppler Study

Bangalore, India

Name SUNAABHA
Ref By Dr. JAYARANGANATH M., MD., DM.
Echo. No. 2016-6331
Age / Sex 5 Yrs/ Male

OP/IP No. 201607150171 /
Date 15/7/2016 11:06:34AM
D.E.O BHAGYA R
Receipt No. 95613

FINDINGS:

SITUS : Normal
CARDIAC POSITION : Normal
ATRIAL ARRANGEMENT : Normal
ATRIAL SEPTUM : Thin and bulging towards RA
VENTRICULAR SEPTUM : Normal
PULMONARY VEIN : Normal
SYSTEMIC VEINS : Normal
LEFT ATRIUM : Dilated, (4.8 x 5.3cm)
RIGHT ATRIUM : Thickened leaflets, prolapsing AML
MITRAL VALVE : Normal
TRICUSPID VALVE : Normal
LVOT-AORTIC VALVE : AV - Trileflets and thickened
AORTA : Normal
RVOT-PULM. VALVE : Normal
PULMONARY ARTERIES : Normal
LEFT VENTRICLE : Dilated
RIGHT VENTRICLE : Normal
CORONARY ARTERIES : Normal
COLOR & DOPPLER : MR GRADE III
AR GRADE III
TR GRADE I, JET GRDT 16mmHg
PERICARDIUM : Normal
LV FUNCTION (GLOBAL) : Normal

CONCLUSION :

**RHEUMATIC HEART DISEASE
SEVERE MITRAL REGURGITATION
MODERATELY SEVERE AORTIC REGURGITATION
MILD TRICUSPID REGURGITATION
NORMAL LV FUNCTION**

Scanning report:

(Click on this pdf to know about the child scanning report)

Conclusion:

On the virtue of these things it is very clear the malefied conditions in subtle body can be treated effectively by holistically, which will naturally acts on physical plane also by judicious approach , using medicine made by 9 precious gems and Ayurveda.

I am putting this into forum for mankind utility
