Bio-Well Basic level course

1. Human health, connection to EPI/GDV of genetics, consciousness and psychophysiology

How do we understand human health? It depends on: lifestyle, environment, national medical system and genetics. What we can change in this regards and what we can't. Who controls our health and how we can influence on it? Connection of mindset, emotions, DNA expression and physiology. How we can relate that to EPI/GDV measurements. Let's travel together from the level of human's soul to the level of the light of our fingertips!

2. History and spheres of application of EPI/GDV technology

History of Kirlian Effect. Basics of electrophotonics technology. Shift from Kirlian photography to EPI/GDV: computer technologies make all the difference. Main spheres of application of EPI/GDV: medicine, integrative medicine and therapies, psychology, sport, materials studies, environmental studies. Scan example and interpreting.
